

Think Business

The power behind a dynamic enterprise

Today, any business that wants to create strong competitive advantages and drive growth, needs to constantly **improve its business processes, reduce its operating costs** and **increase its productivity**.

The ERP lies at the very heart of all business operations. It efficiently **manages all aspects of business processes** related to customers, suppliers, partners and employees, as well as products and services.

Soft1 ERP incorporates in **a single system** everything a dynamic enterprise needs. By providing you with functionality and modules that adapt to all business processes, **CRM** and powerful **Reporting** and **Business Intelligence tools**, Soft1 ERP is an **ideal solution for developing your business**.

More than just an IT solution!

Soft1 ERP is a comprehensive solution that offers you **a complete set of tools that do more with less**, assisting your company to optimize its core business processes and improve its overall efficiency.

By continuously enriching Soft1 ERP with proven best practices, state-of-the-art approaches and efficient functionalities, your company is able -from day one- to take advantage of its investment and **produce actual business results!**

Through an extremely friendly user interface that enables quick and easy familiarization with all of its functions, **Soft1 ERP** empowers your company, giving significant benefits that result in **unique competitive advantages.**

Addressing your real business needs

Using cutting-edge technologies, **Soft1 ERP** offers everything your business needs to **streamline** its workflow and **automate** functional processes, ensuring real-time access to vital data.

Soft1 ERP is available for purchase either with user licenses or with an annual subscription (ASK model) that includes all new software versions.

No matter what your business needs are, you can utilize **Soft1 ERP** to gain sustainable competitive advantages and position your organization for profitable growth!

...with additional functionality for even greater agility

Soft1 ERP can utilize **Soft1 Web & Mobile applications** with the Soft1 Open Enterprise Engine add-on. The web & mobile applications provide secure and reliable access to company data from anywhere, anytime, through mobile devices (tablet, smart phone etc.) regardless of your operational model (on-premise or on the cloud).

Using **Soft1 ERP**, your enterprise can achieve more efficient business processes and improve the productivity of its executives, **easily and at reduced operating costs!**

Putting people at the center

Soft1 ERP has been designed specifically for allowing its users to easily and rapidly access its in-depth functionality.

Using the embedded **online help** and **documentation platform**, Soft1 ERP users have at their fingertips all the necessary tools to carry out their daily tasks in a most efficient manner.

Additionally, **Soft1 ERP** delivers a role-based desktop that allows access to preferred functions and business application data. As a result, you can gather all relevant information for every process, in an orderly way, which adheres to your company's security rules and restrictions.

Key competitive advantages

By providing outstanding performance through all-encompassing processes and functions, **Soft1 ERP** assists any enterprise in creating competitive advantages, as well as new business opportunities. With Soft1 ERP, you can equip your business with substantial benefits and unique capabilities, such as:

Operating cost savings
Streamlined processes
Effective cooperation
Increased productivity
Real-time information

Top 5 Reasons to select **Soft1 ERP**

- ◆ Ready-to-run comprehensive solution
